

EMR Related Health Reporting

Examples from 15 years cross border cooperation

Dirk Philippsen
Communal Health Reporting
Public Health Department, Düren County

Why are Euregional Data and Indicators useful?

basic options:

- **comparing national euregioparts**
- **comparing communities of the Euregio**
- **comparing communities in the national Euregio-parts**
- **description of the Euregio**
- **comparison of the entire Euregio with the Euregio countries**

euPrevent Map

Life Expectancy, Male, 2006

euPrevent Health Reporting, Euregio Maas-Rhine

Mortality rate, Life Births, Life expectancy, Year 2007 (2006)ii

Region and Country

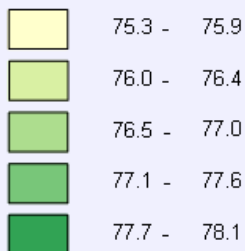

Value

move mouse over map

PM 10 Immission, 22.01.2015

Why are Euregional Data and Indicators useful?

- **identify and document Euregional specifics**
- **collective problems, collective solutions**
- **identify differences, learning from partners**
- **appropriate activities according to requirement, not according to nationality**
- **„evaluation“ of activities**
- **identification of effective activities**
